PROFESSIONAL SUMMARY

Computer Engineer with hands-on experience in EHR systems, IAM administration, and digital platform management. Skilled in Python, React, and IoT with a strong focus on improving public service delivery through technology.

EDUCATION AND EXPERIENCE

Innovation Engineer - Maurya Edutech Ltd, Jun 2026 - Present, Nairobi, Kenya.

- Delivered comprehensive coding and robotics training to build technical literacy, while also driving business growth through targeted marketing and sales of educational technology products.

IT Support Assistant - Ministry of Public Service, Jan 2026 - May 2026, Nanyuki, Kenya.

- Ensured secure operations and high availability for government infrastructure by troubleshooting digital payment gateways, administering electronic health record (EHR) databases, and managing identity access management (IAM) protocols.

Diploma in Information Communication Technology - The Nairobi National Polytechnic,

Sep 2023 – Sep 2026 (Expected Graduation), Nairobi, Kenya.

PROJECTS AND TECHNICAL INITIATIVES

Dawa Mashinani - Offline Ready Health Ecosystem - University of Nairobi,

Apr 2026 – Present.

- Bypassed traditional infrastructure barriers by architecting a USSD-based health platform backed by a Python and MySQL architecture, reducing the time required for rural patient triage by 66%.

QejaYetu - SMS Accommodation Platform - Africa's Talking,

Apr 2026, Nairobi, Kenya.

- Optimized the spatial accommodation search process by integrating Google Maps and SMS automation, reducing property discovery friction and increasing user engagement by 84%.

Online SBA System & Digital Transition - Ministry of Public Service,

Jan 2026 – May 2026, Nanyuki, Kenya.

- Managed the online SBA platform and facilitated comprehensive staff training, successfully driving the transition from manual to digital workflows and increasing user autonomy.

SKILLS

- Development & Design - React, Python, JavaScript (ES6+), HTML / CSS, Kotlin, Adobe Illustrator.
- Data & Networking - TCP / HTTP Protocols, PyTorch, Power BI, AWS Solutions Architect (Current study).
- Professional Attributes - Autonomous Learning, Analytical Problem-Solving, Technical Communication.
